

Management model of political crisis regarding the character sketch of Imam Khomeini

Writer: Abolhasan Hoseinzadeh Gaghargh

Submitted to: Imam Sadegh University, Islamic knowledges and political science department

Abstract:

In this research work the writer seeks to answer the question what are the main foundations of the model of management of political crisis regarding the character sketch of Imam Khomeini (peace be upon him)?

In order to answer that question the writer after examining the most important management approaches and main approaches and common models of management chooses the model of management of crisis of Imam (peace be upon him) and then through examining the thoughts, scientific and value infrastructures of the founder of the Islamic revolution I examine the main elements of his model of political management as the field of the model of political crisis of Imam.

Then through a case study of occupation of espionage nest crisis as one of the biggest and most important crisis after the Islamic revolution I carry out research on and examine the main elements of the model of crisis management of Imam Khomeini that includes planning, organizing, decision-making, guiding, leading, controlling and overseeing that has three phases one that is the phase of before the crisis, one that is the phase of during the crisis and one that is the phase of after the crisis.

What distinguishes the model of crisis management of Imam from other similar ones are the thought, scientific and value infrastructures that are based on Islam and that appears in his field of the model of political management.

Key words:

Imam Khomeini, management, political crisis, leadership, the US espionage nest
