Abstract:

This thesis has been compiled having a goal and that is to explain the mystical interpretation of praying and according to that the quadruplet travels according to Imam Khomeini.

The degree of the perfection of humanity and its truth ascension to the true ascension to heaven and ascension to the peak of praying and reaching the one that is the idol through praying. The principle of the truth of praying is to reach to the secret of praying and that is a travel whose origin is the house of the self and that is being in God.

Therefore, praying is the extract of the moral quadruplet travels and the results of this research tells us that. Also since reaching the true Tawheed (monotheism) can be had through worshipping and particularly through praying and the real praying is adducing the real Tawheed and according to Imam Khomeini (peace be upon him) the most important conditions of praying is riding, genu flexion and prostration and they are constitutive of adduction of Tawheed hence according to Imam (peace be upon him) the process of Tawheed is also compatible with the components of praying.
