**Thesis Title:** Imam Khomeini's views on mother's guardianship by considering elements of time and place

**Author or writer:** Fatemeh Karmi

**University:** Islamic Azad University, Tehran Branch, Faculty of Literature and Human Sciences

### **Abstract:**

The purpose of the research has been to explore Imam Khomeini's view regarding mother's guardianship by considering the elements such as of time and place.

The author has resorted to library research method by exploring from different books and referring to relevant sites and analyzing and reviewing their content.

It is a tool for measuring jurisprudence, legal, and commentary books. Imam's special attention to the role of time and space in ijtiḥād (extracting Islamic decrees from basic sources of Islam), as well as taking into account the Imam's view and perception of the position of women in today's society, it could be concluded that Imam Khomeini was supporter of the guardianship of the mother. . In addition to that, this view is well founded and can be proven from the Qur'anic verses in the hadiths and intellect reasons.

**Keywords:** Imam Khomeini, mother's guardianship, time and place, ijtiḥād (extracting Islamic decrees from basic sources), women
