Same time the study ponders on the two active trends as *Struggling Cleric's Society* and *Struggling Cleric's Assembly* (reformists) and tries to highlight the two trend's interpretation from the political thoughts of Imam. The main question of the study here is the kind of approaching of these political groups to Imam's thoughts especially in formation of the parties. In order to answer this question, the research tried the assumption that some political trend who recognizes the Islamic quality as the main element of Imam's political thoughts relayed on jurisprudence leadership (Vilayat Faghih) in their interpretation and usage of Imam's thoughts, while the other party gives pivotal role to the quality of republicanism and gives value to peoples role. So, a theme as such has been tried to firstly explain the discourse in chapter 1 and then investigate Imam's thoughts in form of a discourse and as a research framework. Therefore, the important element in Imam's discourse here is Islamic ruling and Islamic jurisprudence leadership (Vilayat-e-Faghih). Second chapter comes on study of political streams in post Khomeini's Iran. In this chapter first we study the general factors involving political streams' categorization and then we'll investigate and categorize the current political trends in Iran and pay attention to the streams loyal to Imam and finally in this chapter we study the elements of Imam's discourse. Third chapter is about the history of formation the assembly of struggling clerics and its internal procedures and events in its formation and also investigates the kind of their approach to Imam's thoughts and their type of political stream as a party in same direction with Imam's thoughts. In the end the study concludes the emphasize of the assembly like other streams of the kind on Vilayat-e-Faghih –guardianship of jurist--and the other party, struggling clerics like other parties of the type puts its stress on people role in Imam's thoughts.
